Bethesda, Maryland

Dear Max and Nat:

The enclosed draft was stimulated by a telephone call by Nat some months ago and meeting Bob in New York last week. I know that there are problems with it, but I would like very much to submit this for publication. Insofar as the last draft was found acceptable, and submitted to a journal, I would like to assume and hope that this one will also be acceptable to ourselves. If so, I should like to submit it to one of the journals listed in my note to Bob.

Would you please respond to my questions and I hope that we can agree to submit this to one of the journals suggested.

My best regards,

Sincerely yours,

Max Fink, M.D.
