Re: Ms 4024 (Revised)

Dear Dan,

In re-reading the draft of the article, "Efficacy and Safety of Induced Seizures (EST) in Man", I found a number of errors in the text of the discuss-on and comment (pp. 30-35). I have corrected these, and in the event the article meets the standards of the Archives, I ask that you use this draft for publication.

Thank you for your consideration, and my best wishes for a healthy 1977.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
