Dear Al:

I wish to take this opportunity to personally thank you for a most excellent report on the programs at the Missouri Institute of Psychiatry. During the past few years I have dreaded interviews from reporters, because on each occasion their reports have been filled with trivial errors which obscured the real issues and the picture which they were trying to present. I believe you have captured the essence of Dr. Ulett's program, presenting it well and most accurately, and was pleased to have had this opportunity to work with you.

Sincerely yours,

Max Fink, M. D.
