

January 31, 1974

Costas Stefanis, M.D.  
University of Athens School of Medicine  
Athens, Greece

Dear Costas,

Enclosed are copies of the two summaries which we submitted to NIDA yesterday. In addition, we sent 16 volumes of the data outputs (the material that we brought last spring and the outputs of the work done by Aris this summer) as well as copies of the reports which we made in 1971 and 1972. I believe that the reports were well accepted, although Rhea told me of many questions that were raised.

I have asked her to list the questions and as soon as I have them, I will send them on to you. If the NIDA allows an extension, we may be able to submit a definitive report, hopefully written together, which may answer some of their questions as well as our own.

Please extend my best wishes to our many friends in Athens.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
