and Pharmacology
University of East Africa
Nairobi, Kenya
East Africa

Dear Mr. Harthorn:

Mr. R. N. Lindsay, of the Associated Press in Johannesburg, has referred us to you for information regarding the new tranquilizer, M99.

We had written to Mr. Lindsay after reading an article in a local newspaper regarding the use of this drug to subdue a rhinoceros.

The Missouri Institute of Psychiatry is a research center, and one of our major programs is the evaluation of new psychotropic drugs, which is part of a national early clinical drug evaluation program. We would greatly appreciate receiving any information available on M99, especially the manufacturer's name and address.

Thank you for your cooperation.

Sincerely yours,

Max Fink, M. D.
Director
