Dr. William Vogel
Worcester State Hospital
Worcester, Massachusetts

Dear Mr. Vogel:

In reading the program of EPA, I noted the title "Effects of Testosterone Infusions upon the EEG and Mental Performance of Normal Males." We are particularly interested in drug induced EEG changes in volunteers and the relation of these changes to behavior, both in the normal and in mentally ill.

If a preprint is available I would appreciate the opportunity to read it.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
