

July 20, 1971

Dear Mrs. Hyatt,

Thank you for your kind offer, which I gladly accept. I do enjoy the opportunity to participate in the process of editing books, but found my time inordinately tied up in the process. You must know that many publishers are now actively seeking volumes on drugs of abuse, and since the authors are for the most part inexperienced and unknown, they send their texts to some of the better known investigators.

My selections:

Barlow: Contemporary Brain Research in China
306-10844-5

Wulfsohn-Sances: The Nervous System and Electric Currents
306-30478-3

Kissin-Begleiter: Biology of Alcoholism
306-37111-1

Many thanks.

Sincerely yours,

Max Fink, M.D.
