Dr. Harold Aaron
The Medical Letter
New York City

Dear Dr. Aaron,

I have read the summary, Methaqualone and REM, with interest. The report seems direct and well written, and is very clear.

As I am not in the habit of regularly recording sleep-EEG records, I am unable to contribute to the content of the report, nor to assess its fairness or accuracy.

Thank you for your interest, and for your offer of a trial subscription to Medical Letter. May I suggest that the address of record is not the New York University College of Medicine, but the New York Medical College:

Max Fink, M.D.
Professor of Psychiatry
New York Medical College
5 East 102 Street
New York City 10029

Sincerely yours,

Max Fink, M.D.
