Miss Carol Lindeman
Albert Einstein College of Medicine
Yeshiva University
Eastchester Road and Morris Park Ave.
Bronx, New York 10461

Dear Miss Lindeman:

Dr. Abrams and Dr. Dornbush were kind enough to bring this interesting protocol to my attention. Some years ago I was involved in a similar undertaking in which we compared convulsive therapy and electrical means and Indoklon. A copy of that report is enclosed for your information.

Good luck in your studies.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
