Mr. Herman Weisman
Hofmann-La Roche
Nutley, New Jersey

Dear Hank,

I very much enjoyed my visit to Nutley and I hope the discussions were as profitable for you as interesting for me. I will collect some samples from the next subject or two at 9 and 12 mg bromazepam, and call you when these are available.

Perhaps you would do me a favor. I found the discussions interesting but at this moment have difficulty in noting the names and identification of the many members of the staff that I met. Could you send me a 'score-card' ?

Many thanks.

Sincerely yours,

Max
