Dear Sol:

Some weeks ago, you were kind enough to send me copies of the forms used in the collaborative study. One of these, Form No. 48, entitled "Patient's Psychiatric and Social History", seems so well set up that we would like to use it in our patient population in the therapy resistant study (MH-08517).

Would it be possible for PSC to supply us with 100 copies of this form? If so, I would appreciate it, because it would save us the expense of duplication.

Sincerely yours,

Max Fink, M.D.
