

December 22nd, 1972

Dr. Gerald Klerman,  
Professor of Psychiatry  
Harvard Medical School,  
Massachusetts General Hospital,  
Boston, Mass. 02114.

Dear Gerry,

Re: Dr. C. Dahlberg

I am pleased to second the nomination of Dr. Dahlberg for membership in the APPA.

I have known Clay for more than a decade, and have followed his research efforts in psychotherapy, and LSD with great interest. For a number of years he treated patients in an experimental frame giving them capsules containing LSD, amphetamines, or placebo. The study was complex, but he carried it out well.

He is a keen investigator and has much interest in clinical and experimental aspects of psychiatry. I am pleased to recommend him for membership.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
