

September 6, 1968

Dr. James Merkel
Squibb Pharmaceuticals
New Jersey

Dear Dr. Merkel,

Would you please make available an additional supply of 10 vials of fluphenazine enanthate for the continuation of our final groups of subjects? We still have some vials but they bear an expiration date of October 1, 1968. What is the best step with this remainder? Is it still to be used?

The data of our crossover study is now complete and we have the case records and the report available for 40 subjects who completed the crossover and 68 who participated. The final copies are in the typist's hands and should reach you shortly.

Thank you, once again, for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
