Dr. John A. Stern
Director of Research
Malcolm Bliss Mental Health Center
1420 Grattan Street
St. Louis, Missouri

Dear John:

I am flattered by your request, and am pleased to enclose those reprints which are available in my files here. A complete list is followed by the report of the ten-year period at Hillside Hospital. This reviews all our studies, and gives you an overview.

Successively are reprints covering electroshock, linguistic analysis, psychological performance tasks, sociological studies, psychotropic drugs, and finally, EEG studies.

My best regards.

Sincerely yours,

Max Fink, M. D.
Director
