

December 28, 1967

Dr. Roger Meyer  
National Institute of Mental Health  
Bethesda, Maryland

Dear Roger,

It was kind of you to visit my laboratory and I was pleased to have the opportunity to discuss our research programs.

In the interim, until the naloxone paper is completed, I am taking the opportunity to send you a draft of a chapter in a forthcoming volume on the treatment of narcotic addiction. This chapter reviews our present position with regard to narcotic antagonists in the treatment of opiate dependent.

My best wishes for a Happy and Active New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
