Gentlemen:

Enclosed are the revised page proofs. The only significant correction is in the citation for Fink, M. (5, 1964) which should read: Electroenceph. clin. Neurophysiol. Suppl. 23 (1964).

Thank you for your comment regarding reprints. Unfortunately, I have no record of requesting reprints. We do wish to order, at least 100 with covers, and would request your sending me the appropriate order blanks so that this can be completed. If I already signed one, would you please send me a copy and I will have the appropriate orders made up.

Please excuse this extra problem.

Thank you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
