Dear Miss Gasparovic:

During the seven and a half months of service at the Missouri Institute of Psychiatry, I have observed your work to be outstanding. Your enthusiasm, interest in the patients, and desire to participate in the Research Programs have been great, and we regret your decision to return to school. However, the training program in which you are embarking is an outstanding one, and I am confident that you will do well.

Please accept the thanks of my associates and myself for your work with us.

I do hope that we shall have the opportunity to have you rejoin us at the completion of your studies.

My best regards,

Sincerely yours

Max Fink, M. D.
