

April 6, 1967

Dr. Eugene Laska
Director, Computer Facility
Rockland State Hospital
Orangeburg, New York

Dear Gene,

Enclosed are the corrected galley proofs of our contribution to your book. You will note that I have made some suggestions for headings since the text seems to require some separation between sections.

I am surprised that there is no request for reprints. It would be most helpful if these could be provided and I hope that this is merely an oversight on the part of the printer. We are anxious to have reprints available for the technical documentation of this problem in our field.

Incidentally, my congratulations on receiving your computer grant. You are undertaking a monumental piece of work and I look forward to hearing more about it.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
