Dr. H. A. Robinson  
Psychiatric Institute  
University of Maryland School of Medicine  
29 S. Greene Street  
Baltimore, Maryland 21201

Dear Dr. Robinson:

Enclosed are the galley proofs and the original manuscript of the report "Cholinergic Aspects of Convulsive Therapy." Please note that my new address, effective June 1, will be:

Department of Psychiatry  
New York Medical College  
Fifth Avenue at 106th Street  
New York, New York 10029

In such a review, I have attempted to summarize the conclusions from each section by a paragraph at the end. In my original manuscript, these summary paragraphs were italicized. The editor has preferred not to italicize them and I will agree that this is the way it should be published. I would feel better about it if you have had a chance to review the galleys and make your own decision. If the summary paragraphs are not to be italicized, please cross out the right-hand brackets and the asterisks beginning on galley pages 4, 5, 6 and 7.

Thank you for your cooperation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
