Dr. A? Liakos, M.D.
Department of Psychiatry
University of Athens School of Medicine
Eginition Hospital
74, Vasillissis Sophias Av.
Athens, Greece

Dear Dr. Liakos,

It gives me great pleasure to extend an invitation on behalf of the Association for you to visit our laboratories in July. We are aware of your contribution to the ongoing study of *Chronic Hashish Users in Greece* under contract HSM 42-70-98 with the U.S. National Institute of Mental Health.

We have received the additional data from the acute studies undertaken this spring, and in our analyses, it would be most helpful to have your collaboration and advice as each of the analyses are completed.

Should it be advisable, we will provide funds for your stay in the United States; and we will reimburse the Department of Psychiatry for your travel expenses.

I look forward to greeting you in the U.S. I will be available in New York during July and most of August, and can be reached at my office (516-444 2447) or my home (516-466 5444).

My best regards to Professor Stefanis and to your wife.

Sincerely yours,

Max Fink, M.D.
Executive Director
