Dr. Eugene Laska  
Director, Computer Department  
Research Facility  
Rockland State Hospital  
Orangeburg, New York

Dear Gene,

Enclosed is a copy of the abstract which Don and I have submitted to the World Congress of Psychiatry. I would appreciate your notifying the appropriate committee at the World Congress that Don is coauthor for the presentation, and it would be appropriate if he were so listed in the program.

We will prepare a final manuscript during the next few weeks and try to meet the August 1st deadline. I am not sure as to the length of this communication and would appreciate your letting me know.

If I do not hear from you, I will assume that it is approximately 20 minutes in length.

Again, my thanks for your kind invitation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
