

March 1, 1971

Dr. Turan M. Itil
Missouri Institute of Psychiatry
5400 Arsenal Street
St. Louis, Missouri 63139

Dear Turan,

It will be a privilege to participate in the 1971-72 series of research seminars at the MIP, and have set aside February 25, 1972 for this program. ECT is an exciting part of our research program and we should have new data by that time.

Thank you for the invitation; my best regards to my friends and co-workers at MIP.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
