Dr. Conan Kornetsky,
Boston University School of Medicine
Department of Pharmacology
and Experimental Therapeutics
80 East Concord Street
Boston, 18 Massachusetts

Dear Conan:

I very much enjoyed talking with you in Washington and was both surprised and pleased that the meetings turned out so well. Dr. Don Sundland, who is working with Dr. Itil and myself on the program we discussed would like very much to visit you during the first week in December. His schedule is flexible so that he could come any time. If you would indicate the two days that are most convenient for you and your associates, we will make the arrangements here.

As you may recall, I am interested in his setting up a system similiar to yours so that we may attempt a replication of your recent study.

In response to your other question, he would be delighted to review the work that has been done in the area of reaction time in schizophrenia.

Sincerely yours,

Max Fink, M.D.
Director
