Dear Dr. Verdeaux:

I am enclosing a copy of the abstracts of the 1961 meeting, as submitted to the EEG Journal. In the event that the editors do not wish to publish these, I will ask you to send them on to Dr. Rothlin.

Dr. Denber has returned without the opportunity to meet with you. Since we have no response from Dr. Cazzulo, I would suggest that we meet in Munich during the CINP. If this is agreeable to you, we can write to Dr. Bente to request a room; and we could send our invitations. If it is to be done for 1962 it should be done soon.

My regards.

Sincerely yours,
