M E M O R A N D U M

TO: I. B. Schwartz
FROM: Max Fink
SUBJECT: Equipment at Metropolitan Hospital, to be moved to
5 East 102nd Street.

All equipment listed was bought by NYMC under MH 12567 (Narcotic Antagonist Study) and is so labelled.

	<u>Total</u>	<u>To 102</u>
Desks (brown top, black sides) (each 30 x 60, single pedestal)	8	5
Desk - Brown "wood", double ped.	1	1
Chairs - Black naugahyde, some with arms, some straight	18	10
Colored (red, orange, white)	9	8
Executive chair, brown	1	1
Desk - Chemical Lab (green)	1	1
Cabinets - (black or grey 5-6 ft.)	3	3
Table - "wood top"	1	0
Shelving units	10	8
File cabinets	1	1

It is my recommendation that the number on the right be released for transfer to 5 East 102nd Street as soon as practicable. Nurse Sonna Durbin has made the inventory and can act as liaison for transfer, identifying units to be moved, storing contents, etc.

The shelving contains EEG records from the psychopharmacology studies. These should be moved to 5 East 102nd Street as well.
