Dear Dr. Pozo-Olano:

Neither of the articles you requested are available. Psychiatric Research Foundation of Missouri, Publication No. 65-~~20~~ was a preliminary report of our EEG - sleep classification studies, and was recently much elaborated and published in *EEG Clinical Neurophysiol.*, 27: 76-83, 1969.

Psychiatric Research Foundation of Missouri, Publication No. 66-1, a manual prepared by Shapiro and myself, is out of print and no copies are available.

I have not yet seen your report on computer studies of brain waves, but would be most interested in sharing a copy with my associates.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
