Dear Art:

When I returned from Europe I was very much encouraged by Sam's recommendations regarding the possibility of you reconsidering an appointment to Missouri. As he may have mentioned I had planned to come this month to California and had hoped to spend an evening with you. I could not make a decision until today, but unfortunately I am not able to come to California this month.

As he may have told you, I have expanded the Institute's budgetary request for 1965-67 to encompass some of the personnel and equipment suggestions made by Sam. I expect that I would know by the middle of January what the Governor's recommendations will be and with that in hand I look forward to calling on you.

In the meantime, if the occasion permits on one of your cross-country travels I would be pleased to have you stop by St. Louis and visit with us. Indeed, I would look forward to having you meet with our staff and residents and have you tell them something of the experiences you had both in Michigan and California.

With best regards.

Sincerely yours,

Max Fink, M.D.  
Director
