

December 18th, 1972

Professor J. Cadhilhac,
Chairman, Institut de Biologie,
Faculte de Medecine,
34-Montpellier, France.

Dear Professor Cadhilhac,

I should like to present a scientific exhibit at the 1973 international EEG meetings in Marseille. The subject: *Drugs, EEG, and Behavior*. I am preparing a panel display with a slide projector demonstration which will run automatically. Because the text will be recorded on tape, it would be possible to record the same text in French and German as well as English. We will need a space of 16' x 6' or its equivalent.

I am pleased to enclose an abstract for your consideration.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
