Dr. William H. McGlothlin, Ph.D.  
University of California, Los Angeles  
Department of Psychology  
Los Angeles, California 90024

Dear Dr. McGlothlin:

The reports of our various studies of cannabis are enclosed. Our three ongoing studies, that of acute trials of marijuana in volunteers, chronic marijuana trials in volunteers, and the central effects of hashish use in Greece, are in the data collection phase and should be ready for publication late this fall.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
