Dr. Harold E. Himwich, M.D.  
Director, Research Division  
Galesburg State Research Hospital  
Galesburg, Illinois

Dear Harold,

I have spoken to Dr. Brill regarding the assignment of our panel during the forthcoming CINP meetings. He indicated that there was still sufficient flexibility in the program, that if I were to indicate our needs, he believed he could accommodate us.

Would you please write specifying the times that you would prefer having this panel on the program and I will then write directly to him making a specific request which can meet your needs as well.

Many thanks.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
