May 2, 1973

William Guy, Ph.D.,
ECDEU Data Analyses,
Biometric Laboratory,
11501 Huff Court,
Kensington, Md. 20795.

Dear Bill,

Enclosed is an edited report of ECDEU unit 006.
I am also pleased to enclose four RPR's of ongoing
studies.

Insofar as my unit is no longer at the New York
Medical College, but now fully installed at Stony Brook,
I would be pleased if you would continue to use the
designation of the unit as 006, noting that the new
address is that at Stony Brook.

Thank Ron for the first output on the ECDEU data
bank. It is interesting, and I spent some time reading
it. Despite the variety of populations and the large
numbers of subjects, many of the cells are quite small.
The project is indeed a many year effort.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
