

January 25, 1971

Dr. Ramon de la Fuente
President WCP-1971
Insurgentes Sur 1748-503
Mexico 20, D.F.

Dear Dr. de la Fuente:

I am pleased to accept the invitation to participate in the program "EEG Correlates of Mental Illness", and propose as the title of the presentation:

*Psychoactive Drugs, Brain Function
and Human Behavior*

The necessary form is enclosed, and a copy was sent to England.

It was also kind of you to send me the outline of the proposed program.

The participants represent as active a group as I know, and should make a fine session. Perhaps Dr. Jus of Warsaw (now in Canada, I believe) should also be considered as a panellist.

If Dr. Bente cannot attend, I would recommend Dr. Helmchen of the University of Berlin as a replacement.

Of the participants I know, I would recommend either Dr. Roubicek or Dr. Oswald as the active chairman, both being sophisticated and multilingual.

If the proceedings may be published, Dr. Matousek or Dr. Itil would be a capable secretary for the session and experienced in arranging publication.

I look forward to an interesting and useful convocation.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
