Dear Miss Grossberg:

I am enclosing the galley proof of the contribution "Cholinergic Mechanisms in Mental Illness: Anticholinergic Hallucinogens" to Volume VIII of the *Recent Advances in Biological Psychiatry*.

This presentation is the introduction to the papers by Drs. Abood, White, Itil, Gershon, and Wilson. Insofar as these reports represent a coherent and organized presentation of a single subject, I would like to request the publisher to reprint this set of articles and issue them together in a single cover. Such a compilation would be helpful to each of the participants and I would undertake to underwrite such complete reprints to supplement individual orders by each of the contributors. May I ask for a quotation for such reprinting in quantities of 100 or 200?

The order for individual reprints for this contribution is enclosed.

Thank you for your co-operation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
