Dr. Nathan B. Eddy  
7055 Wilson Lane  
Bethesda, Maryland 20034

Dear Dr. Eddy:

We have recently been assured by Endo Laboratories that naloxone will be available this week for clinical study. We anticipate doing multiple challenges on each subject and will require an additional supply of heroin for this purpose.

Our present supply will be exhausted at the end of August.

I would be grateful if you would arrange to make available an additional 5 grams of heroin as soon as is practicable.

Thank you for your help.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
