Dear Alain,

Enclosed is the proposed protocol for high dose and very high dose fluphenazine therapy, as you requested in our last meeting with Dr. Itil.

In addition to the protocol, we are enclosing copies of the psychopathological rating scales, both in the English and Turkish versions, and the laboratory data sheet. You will note that these forms are organized for machine processing and the equivalent of the Turkish and English forms should make possible a detailed analysis of the changes in psychopathology.

Thank you very much for your interest.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
