Dear Sir:

It is with some regret that I tender my resignation from membership in the American Psychological Association. The increase in dues caused me to assess my relationship to this important national society. While I believe that national scientific societies do have a role to play in the development of scientific disciplines, I am reluctant to support dues increases where much of the additional funds must be used for political activities.

I have enjoyed my relationship with this association and wish the organization well.

Sincerely yours,

Max Fink, M.D.
Director
