Dr. P. Borenstein
Laboratoire de Psychopharmacologie
Neurophysiologique
Hopital Psychiatrique de
Villejuif (Seine)
FRANCE

Dear Dr. Borenstein:

I have received your reprints and thank you for thinking of me. I think the systematic nature of your studies with the benzodiazepines is very helpful, for we are now attempting to relate EEG changes with blood levels.

I am taking the opportunity to wish you the best for 1974 and to tell you that earlier this year I moved my laboratory from the New York Medical College to Stony Brook. I would appreciate receiving any other reprints at this new address.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry

MF/cis
