Dr. Oldrich Vinar
The George Washington University
Biometric Laboratory
1145 Nineteenth Street, N.W., Room 618
Washington, D.C. 20036

Dear Dr. Vinar:

I have read the summary of the CINP program and find the report accurate. May I ask, however, that the title of symposium 4 be changed? The word "dependence" is usually not applied to amphetamines or hallucinogens without argument. Perhaps the title should be changed to "Pharmacological and therapeutic aspects of amphetamine and hallucinogen abuse".

I note that your secretary has misspelled the name of Dr. Sarwer-Foner.

I look forward to seeing you at the ECDEU meetings next week. My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
