Professor E. G. Saint
School of Medicine
Victoria Square
Perth, Western Australia

Dear Professor Saint:

Dr. I. Pierce James of the Royal Perth Hospital has indicated an interest in a position at this Institute and has referred us to you for further information. This Institute is the research and training center of the Division of Mental Diseases of the State of Missouri. In addition to clinical research facilities, laboratories have been established in pharmacology, psychology, electroencephalography, and computer sciences. The Institute is also responsible for a residency training program.

Considering Dr. James' experience, he appears to qualify for a position in charge of one of the clinical research programs, or in charge of the training program for psychiatric residents. I would be grateful for any information you may make available regarding his training and experience in research, his abilities as a teacher, his personality and character, especially his ability to get along with his co-workers. Such information will be most helpful in our understanding his desire to leave Australia.

Thank you very much for your cooperation.

Sincerely yours,

Max Fink, M. D.
Director
