Dr. K. Heinrich  
Oberarzt Nervenlinik  
University of Mainz  
Mainz, Germany

Dear Dr. Heinrich:

I wish to thank you for your kind invitation to attend the Symposium on Psychopathology. As you know, I was unable to attend but I was grateful for your thoughtfulness.

I have also received your many reprints and the volume of earlier proceedings. I have read this with a great deal of interest and I must thank both you and Dr. Itil for bringing to my attention a series of studies which, I believe, will make a major contribution to our understanding of the schizophrenic process.

I look forward to seeing you in Europe, or if the opportunity presents itself for you to come to the United States again, I would be pleased to have you visit me in my new location at the New York Medical College.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
