Mr. Arthur Werbner  
Management Science Advisor  
Honeywell, Inc.  
Electronic Data Processing Division  
6 West Druid Hills Drive North East  
Atlanta, Georgia 30329

Dear Mr. Werbner:

I regret that the reprint you requested is no longer available. I am taking the liberty of sending you a copy of another report which describes the application of these studies and which may be of interest.

If your thesis is directly related to EEG analysis, it may be useful for you to ask more specific questions in relation to the problem and perhaps we can be of some additional help.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
