

29 September 1973

Dr. Jiri Roubicek
Experimental Therapeutics Department
Sandoz Ltd.
Basle, Switzerland

Dear Jiri,

It was a great pleasure to be able to attend so many of the meetings in Marseille with you, particularly the many discussions which followed the presentations in our common session. As a chairman, I very much appreciated not only the content and the spirit of your remarks, but your willingness to lead the discussion. I found the meetings most helpful and interesting, and I look forward to continue the discussions in your laboratories.

I received the enclosed letter from Professor Kielholz. I met him at the CINP committee meetings in Beerse before Marseille, and in exchanging pleasantries indicated that I would be visiting Basle in October. I am also enclosing my reply-- trusting that you can make arrangements which are diplomatic and acceptable to you.

My family has discussed the forthcoming trip often. Neither Martha nor Rachel are free to come with me, but Linda, my youngest daughter will come with me. Because I wanted to allow her some freedom, I am also bringing along my nephew, and so I will have two youngsters with me. I would be grateful if you would arrange for two rooms for the two nights. In checking my travel arrangements, I am scheduled to leave for Amsterdam Friday morning at 10:30.

I look forward to visiting with you and Marcia. My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
