

January 15, 1968

Dr. Alan Miller, Commissioner
Department of Mental Hygiene
Albany, New York

Dear Alan,

As I mentioned at the ARNMD, we have recently completed a study of an interesting new compound in the treatment of narcotic addiction. A copy of the report is enclosed. I have also sent a copy to Dr. Brill.

Further studies seem hampered by limitations of the supply. This compound has been produced by Endo Laboratories of Garden City, Long Island.

We would, of course, like to continue these studies. Your cooperation in making supplies available for further study would be appreciated.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
