Dr. John E. Overall
Department of Psychology
Kansas State University
Manhattan, Kansas

Dear John:

The entries of 999999 represent missing data, as you indicated.

The 1620 has been installed here and we have been busy setting up our programs and learning its use. It has a 40 K memory. I am looking forward to your visit, and if you wish to bring or send ahead a program to work out here, we should be able to accommodate it.

Sincerely yours,

Max Fink, M. D.
Director
