

February 15, 1962

Prof. Carlo Cazzulo
Dell Universita De Milano
Via Besana
Milano, Italy

Dear Dr. Cazzulo:

In our meetings in Montreal and Rome, it was the consensus that another meeting on "EEG and Human Psychopharmacology" be convened in 1962; and it is my recollection that Milan was proposed as the site. I am writing to Dr. Verdeaux and enclose a copy with this note.

Would you be the host for the "Second Meeting"? I have reviewed the CINP program with the American representative and find our subject is not represented, and a special meeting would be welcome.

As I indicated to Dr. Verdeaux, the material of the Montreal meeting was not detailed enough for a monograph. Perhaps the 1962 meetings could be set up in such a way as to make a good monograph as one product.

I should be pleased to participate in establishing such a meeting; and in participating if held before or after the CINP sessions.

I am grateful for your participation in Montreal and look forward to our meetings in Europe.

Sincerely yours,

MF:gp
