James McGaugh, Ph.D.,
Professor of Psychobiology,
University of California,
Irvine, California.

Dear Jim,

On first reading of the summary, I sent it on to the publisher. In re-reading it today, I pencilled in a few suggested corrections in style, reflecting the format of the other two summaries, and our willingness to send these on to the Archives for simultaneous publication. Please consider these suggestions, and let me know if they are acceptable.

My thanks.

Sincerely yours,

Max Fink, M.D.
