

July 24, 1970

Dear Peter,

Your schedule for our visit is most agreeable and we thank you.

We are arriving in London on Tuesday evening, August 4 on the day flight. We are scheduled to leave London at 1500 on KLM 132, scheduled to arrive in Amsterdam at 1555.

May I ask your help in a small matter of concern to my Department? I have received a letter from an applicant for a fellowship in our laboratories, Dr. Paul Briët. I have taken the liberty to invite him to meet with me during my stay in Holland. If he calls your office, would you arrange that he and I meet for about an hour, at a time least inconvenient to you and Dr. Quantock? Many thanks.

I look forward to visiting next month. Martha and the girls send their best regards.

Sincerely yours,

Max Fink, M.D.
