

February 20, 1964

Dr. George A. Ulett
Director, Division of Mental Diseases
5400 Arsenal Street
St. Louis 39, Missouri

Dear George:

It is with great pleasure that I enclose a copy of the first annual report of the Missouri Institute of Psychiatry. This research and training facility is a hallmark of your vision and the support which you have given us during this year of development.

Speaking personally, I shall always be grateful for your guidance and support during the many difficult days in establishing this unit. I trust and hope that my associates and I will be able to create as fine a center as you have envisioned, and that we do indeed make some contribution to the care of the mentally ill of Missouri and the prevention and understanding of mental illness.

My best personal regards.

Sincerely yours,

Max Fink, M.D.
Director
