

September 20, 1971

Dear Kathy,

I am enclosing another of the ECT papers. This one has undergone extensive revision, and I would appreciate your help. Please retype a clean draft, omitting the tables and references. In the text, check the references which should be cited not as superscripts, but in ().

When the draft is completed, if you can xerox a copy, do so. Send the original and the draft which I edited to:

Dr. Walter Essman
Department of Psychology
Queens College - CUNY
Flushing, New York 11367

Send the xerox to me.

If you cannot get the typed draft xeroxed, send the original and typed draft to Renee and she will send the xeroxed to Walt Essman.

I'm leaving for Europe tomorrow, and shall return on October 7. Try to get the drafts to Walt Essman in time for me to get them back.

There are two to go, with the deadline moved up to 10/15.

Renee seems to be doing well, even amid the usual confusion. I have spent the last week in Washington, Kalamazoo, and Richmond; and find myself in Athens, Amsterdam, and Wurzburg next few weeks. The flying is stalled: would you believe that it has rained or been IFR every day in September that I have been home!

Keep George happy, and your fingers flying.

My love,
