Dear Al,

Thank you for your kind invitation to participate in the Second Edition of the "Comprehensive Textbook of Psychiatry". The widespread acceptance of the First Edition assures its continued success.

It will be a pleasure to participate again, and I will be pleased to provide the section of "computers and psychiatry".

As you know, I am a protagonist of a more general application of EEG to psychiatry and perhaps you could consider the inclusion of some of the recent reviews in either the sections of EEG or of psychopharmacology.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
